

## NOW HIRING | SKILLED CARPENTER #21-08

---

For over 25 years, Peak Construction Group of Companies has specialized in the development and construction of commercial, residential and renovation projects.

*We have immediate openings for a Skilled Carpenter to join the Peak team in the Lower Mainland.*

### Who You Are:

You are an experienced Carpenter with high standards for safety and the well-being of all site workers, looking for a long-term position with an established team. You have excellent communication skills and work productively with others.

### Key Responsibilities:

- Building foundations, installing framing, and erecting walls
- Fitting and installing doors, flooring, stairs, windows and baseboards
- Reading blueprints and drawings, preparing calculations
- Measuring, cutting and joining materials using wood/steel
- Performing a range of general construction related tasks as assigned
- Assisting in labour activities, providing guidance to general labour and ensuring quality control
- Assisting with materials management and distribution
- Assisting with providing elevations and layout for subtrades as required
- Assisting with construction site building clean up
- Assisting subtrades when needed and as required

### Experience and Qualifications required:

- Previous construction experience working on commercial, residential or tenant improvements
- Previous experience working with multi-family framing and concrete
- Carpentry ticket or Red Seal Certificate in Carpentry is preferred
- Ability to use equipment and materials applicable to the construction and carpentry trades
- Knowledge of local building codes
- Good physical condition and stamina
- Valid First Aid certification is an asset
