

## NOW HIRING | TRAVELLING CONSTRUCTION SUPERINTENDENT #24TS

---

At Peak, we pride ourselves on providing large firm capabilities, while maintaining small firm personal commitment. Our teams are dynamic, driven, and committed to excellence. Peak is a progressive employer that offers opportunities to work on unique and exciting projects with established and reputable clients.

We currently have openings for Travelling Construction Superintendents to manage construction projects on-site across Canada and the US.

### Summary

The Superintendent is responsible for managing, directing, and mentoring foremen and other field personnel, including junior Superintendents, and possesses comprehensive knowledge of the project management lifecycle. The Superintendent actively searches for risk and opportunity and has the necessary experience to correctly recognize and escalate commercial issues.

### Who You Are:

You have over 10 years of related or relevant experience as a Superintendent. Specific project experience should include food processing, distribution, and warehouse facilities with aggressive schedules. Experience in site development of sites between 15 and 100 acres and working in tight urban core environments would also be relevant to this role.

You have high standards for safety and the well-being of all site workers. You have excellent communication skills and work productively with others; and you have the ability to travel and work remotely.

### Responsibilities

- Field and site management of the project(s) and all project activities
- Supervision of self-performed and subcontracted construction work.
- Technical expertise to make complex decisions about schedule, construction methodology, change management, and balancing the risk/reward equation with respect to field and site management.
- Take personal responsibility both for your own health and safety, and that of other workers, visitors to the site(s), the community, and the environment.
- Work closely with project managers, clients, and other stakeholders to maintain open communication, anticipate challenges, and meet project requirements
- Manage and motivate site crews, subcontractors, and suppliers to align with project timelines and standards.

### Skills & Qualifications Required

- 10+ years relevant experience as a Superintendent
- Skilled Trade Certification is an asset
- Ability to travel
- Strong delegation skills with the ability to set expectations and monitor progress
- Familiarity with all Microsoft Office applications
- Highly developed communication and interpersonal skills with an ability to communicate at all levels

***Should this be a match for your skills, experience and background, please forward your resume to [careers@peakgrp.com](mailto:careers@peakgrp.com) referencing job posting #24-TS***
